

KNOW THE LAW!

West Virginia law requires citizens to properly dispose of solid waste, either by subscribing to solid waste collection service, or by the resident transporting, along with maintaining receipts of, his or her own solid waste to a solid waste facility. (WV 22C-4-10)

Theft of services is a crime. (WV 61-3-24d) Theft of services is when any person, firm or corporation obtains services of any such value from another under false pretense. (WV 61-3-53) Unauthorized use of dumpsters is also a crime. Both crimes are punishable with fines up to \$2,500 and one year confinement in jail.

It is illegal to do the following with solid waste: burn, bury, dump in or near stream or body of water, dump into a roadside dump, or create an open dump on your property. Criminal penalties range from fines of \$2,500 to \$25,000 per day of violation and/or incarceration for up to one year.
